

CE Cleaning Company Sydney Announces Expansion into End of Lease Cleaning

Wong Way SEO Thursday, July 22nd, 2021

CE Cleaning Company Sydney is proud to announce that they are now providing end of lease cleaning services to customers in all suburbs across Sydney NSW. After extensive training, the team of professional cleaners led by Denton Nakumura is ready to meet all the requirements to help customers get their bond back when moving out of the property.

Deep cleaning kitchens and bathrooms, removing cobwebs, spot cleaning window treatments, scrubbing walls and doors, mopping, and vacuuming are all required during an end of lease clean. The company has also invested in the latest carpet steam cleaning equipment which is essential for end of lease cleaning.

At this moment, the cleaning company has capacity to clean up to 6 properties a day and plan to double their capacity by hiring and training another 4 cleaning staff by the end of August.

Denton says all their bond back guarantee and the high quality service which follows a real estate industry approved checklist is what will set them apart from the competition.

The company is already one of the leaders in the industry when it comes to house cleaning and builders cleaning services. The announcement to expand into end of lease cleaning services will bring them in line with their competitors such as Fantastic Cleaners & Maidforyou.

About the Company
